Who We Are

Hello, Sugar is the original hair removal studio in Douglas, Georgia. Sugaring being the sole method used at the studio.

Sugaring is a natural alternative to traditional hair removal and is popular in major metropolitan cities. This hair removal process has been practiced for centuries throughout Northern Africa, Greece and the Middle East. A paste made from sugar, lemon and water is used to pull the hair out by the roots. It is by far one of the most gentle and ancient techniques that serves as a natural alternative to lasers, and one that lasts longer than traditional waxing.

Owned and operated by Megan Stone, master cosmetologist, licensed esthetician, sugarista, educator and permanent makeup artist, you could say that Hello, Sugar was created out of necessity. Being from a small town, Stone felt as though there were little-to-no opportunities for estheticians, especially those with big ideas such as hers. As you can see, the rest is history. Hello, Sugar continues to grow and thrive, adding endless hair removal, self-esteem boosting, beautification, and educational opportunities to their list of services regularly.

Stop by and see what the hype is all about today!

Ashiatsu is a deep-tissue massage with a twist — our licensed therapist uses her feet (yes you read that right) to manipulate pressure on your back and other large muscle groups. Because the feet provide a broader stroke than the hands, this lessens sharp pressure while creating more release throughout the muscle fibers. Without the pain from a trigger-point massage, you will be able to relax your mind along with your body. Allow all stress, tension and worries to melt away during this one-of-a-kind massage.
